

AGRI-SERVICES
WIRING HARNESS SPECIALISTS

OBSOLETE - LOW VOLUME – HARD TO FIND

- REVERSE ENGINEERING
- ADDITIVE MANUFACTURING
- PRODUCT DESIGN

Agri-Services manufactures obsolete parts for farm tractors and other equipment. Reverse engineering from originals, our products improve on the original design in many ways, including the use of common terminals and modern materials.

Agri-Services bullet connectors are made from abrasion resistant material that replicates injection molding with no mold charges or order minimums.

We use additive manufacturing to produce parts for any combination of polarities and wire size.

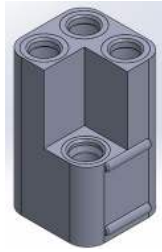

TERMINALS ARE INCLUDED WITH EACH CONNECTOR
