INSTRUCTIONS:

STEP 1:

THREAD ADAPTER INTO FILLER NECK SO THAT THE BEND OF THE RECEPTAL IS UP RIGHT AS SEEN IN THE PICTURE

THIS POSITION MAY VARY ON JT'S

STEP 2: START FUELING

THE DESIGN OF THE ADAPTER ALLOWS THE SYPHON SHUTOFF ON THE FILL NOZZLE TO FUNCTION. IF THERE IS TOO MUCH FLOW, THE SHUT OFF WILL ENGAGE AND THE USER MUST REENGAGE THE FUEL FLOW.

CAUTION:

DUE TO THE REDUCTION IN DIAMETERS (INCREASED FLOW) IN FILLER NOZZLES, ITS IMPORTANT NOT TO FILL TOO FAST, OR LEAVE UNATTENDED.

THE USE OF THE EXCURSION KEEPER IS AT THE USERS OWN RISK. AGRI-SERVICES IS NOT RESPONSIBLE FOR ANY SPILLED FUEL OR ANY OTHER DAMAGE CAUSED BY THE USE OF THIS PRODUCT.
